

## BOYS RECEIVE EASY SENTENCES

Love and respect for the Hawaiian race induce Judge Ashford to give George Hu and Julian Holo a medium sentence of not less than three years in prison when the reform school boys were arraigned before him in circuit court this morning and warned in a sincere, friendly manner to mend the error of their ways.

Holo and Hu were at the head of the gang of 13 boys who recently escaped from the school and went into the mountains, stealing and foraging on the way and finally appropriating an automobile in which the whole baker's dozen continued their trip. All the others have been either sent back to the school or committed to the county jail.

Before going, however, Holo and Hu burglarized the home of one of their instructors who had come to Honolulu for a holiday. They admitted hiding some of the stolen money and spending the rest for tobacco.

Judge Ashford told the boys he had the greatest "aloha" for thoroughbred Hawaiians and therefore would be lenient with them, also taking into consideration their youth, but he warned them to let this be a lesson and to be model prisoners with the possibility of freedom in two and one-half years.

## POLICE COURT HAS BIG DAY'S REVENUE IN FINES

Capt. McDuffie of the detectives was responsible for the arrests in nearly all of 41 cases on the police court calendar this morning and gamblers, cheaters and an opium smoker enriched the city exchequer by \$329 as the result of the big detective's activity.

Eleven Chinese charged with gambling were committed to the circuit court, five more were committed until Monday and an assortment of 10 defendants forfeited bonds of \$10 each. Wong Pung paid \$50 for "biting the pipe," Takasaka, Yamashita, Nori and Takahashi all Japanese, were fined \$25 each for being in a cheater's den and Sada and Harada, as old offenders, were fined \$35 each for the same.

## TERRITORIAL MARKETING DIVISION MAY BE MADE DEPARTMENT BY SELF

Provisions for making the territorial marketing division a distinct territorial institution and freeing it from any federal aid, as is now the case, by bringing it directly under the control of the local government, are contained in a bill introduced in the house today by Gerrit P. Wilder.

A second bill by Wilder provides for an appropriation of \$39,100 for additional equipment for the market, and a third measure creates a \$15,000 revolving fund as a working capital for the division. If Wilder's bill becomes a law, the territorial government will furnish all financial aid, thus cutting off the aid now forthcoming through the federal experiment station.

For the revolving fund it is provided that \$7500 be immediately appropriated from the revenues of the territory, and that an additional \$7500 be appropriated under act 189, R. L. 1915, and now on deposit with the territorial treasurer. It is further provided that \$7500 be deposited with the treasurer to the credit of the superintendent of the division for advances on produce sent out of the territory, and on consignments from and for settlement with producers. Money thus expended shall be paid back out of monies received from sales.

In creating the division in its new status, the bill states its aims shall be "to promote and encourage the organization and operation of cooperative and other associations for improving the relations and services among producers, distributors and consumers of territorial products, and to improve and extend in every way the distribution and sale of Hawaiian products, and to reduce the cost of marketing products."

The term of office of the superintendent shall be four years and he shall be appointed by the governor. He is given the power to make such rules and regulations affecting the department as he shall deem necessary. His salary shall be paid from the proper territorial funds, and he is required to devote his entire time to division work. All conflicting acts are repealed.

**School Affairs Covered**  
Representative Cooke introduced a bill fixing the school budget for the

biennial period beginning January 1, 1918. The budget calls for a special fund of \$753,250 and a general fund of \$226,540.

Governor Pinkham's recommendations for a salary raise for teachers are covered in a bill introduced by Representative Marquez. In part, this act reads as follows:

"The total number of teachers, including supervisors and principals, who may be continuously employed by the department in any one year shall not exceed one for every 35 pupils enrolled in the public schools during the preceding year, provided that the monthly payroll shall not exceed \$67,500 a month plus \$60 additional for every 35 children of school age added to the enrollment of the public schools after June 30, 1917."

The additional \$60 now provided is a 10% increase over the former amount, thus raising the monthly payroll from \$45,000 to \$67,500.

**Immediate Money for Guard**  
Representative Cooke introduced a bill providing for the immediate appropriation of \$15,000 for use by the National Guard. The amount will carry on the work of the guard until next July, at which time the new appropriation becomes available.

Another measure introduced by Cooke provides for the appropriation of the following additional funds out of the general revenues:

Department of public works, \$1,660.50; board of health, \$14,083.17; board of harbor commissioners, \$2500. The committee on public lands and internal improvements, to which was referred resolution 22, introduced by Representative Kelekolio, providing for an investigation to ascertain why the Great Northern and steamers of the Matson fleet do not use the Kulo wharf, has written to the agents of the vessels, and to the Inter-Island Steam Navigation Co., asking to be supplied with this information.

**Still More Roads Asked**  
Representative Lyman introduced an act appropriating \$18,000 for the construction of an asphalt-macadam road through the homestead lots at Paukapu, South Kohala.

The following bills were introduced in the house today:  
**House Bill 147.**

**MRS HIGGINS ENTERTAINS**  
Mrs. Ellen McCullo Higgins entertained more than 150 guests at a tea on Friday afternoon at the Alexander Young Hotel. Tea was served in the Louis XIV room, and prettily garbed Chinese girls in their native costumes served the tea to the guests. Manager Mayo of the Rathskeller decorated the room to resemble an Oriental home.

**LOWREY WITH WATERHOUSE.**  
Alan Lowrey, formerly with Lewers & Cooke, is now working for the Henry Waterhouse Trust Company as assistant to H. Dunshie, cashier. The business of the Waterhouse company has increased to such an extent during the past year that another man was necessary and Lowrey was offered the position. He commenced work March 1.

Sales of 1475 shares of listed stocks marked the end of the stock exchange week. Of these 1169 were between boards.
